

Coeur d'Alene Casino | Worley, ID | C View C1620

Wintrust Financial | Chicago, IL | BF Series BF84ST

Public Spaces

Fire creates energy

From stadiums to shopping centers to casinos, a fireplace in these high traffic areas requires a spectacular design that must be safe. With power venting capabilities up to 500-ft and multiple air intake location options to provide you with ultimate flexibility.

COOL-Pack glass technology provides visual excitement without concerns of hot glass temperatures, especially in spaces where children or the elderly may come into contact with the fireplace glass.

MetLife Stadium, Commissioners Club | East Rutherford, NJ | C View C620
